- Save time by controlling the antechambers cycles, by continuing to work.
- Adjust the pressure in the glove box.
- No need to be connected to internet (standalone system)
- Available in English

# MB VOICE CONTROL

## CONTROL YOUR GLOVE BOX WITH YOUR VOICE

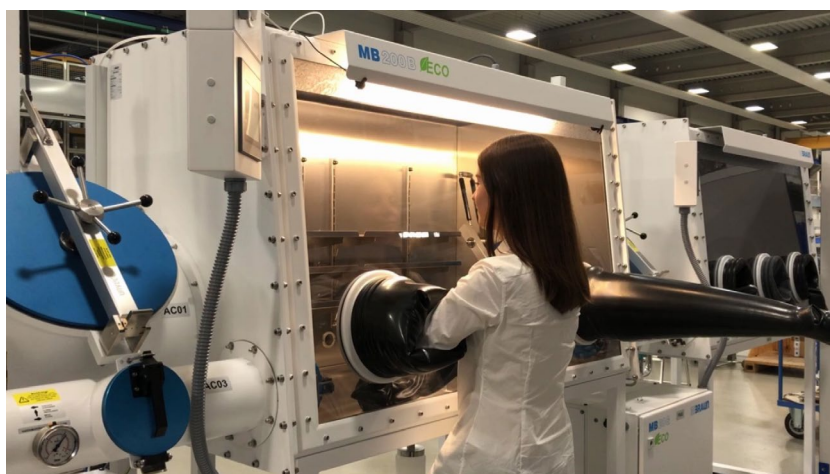

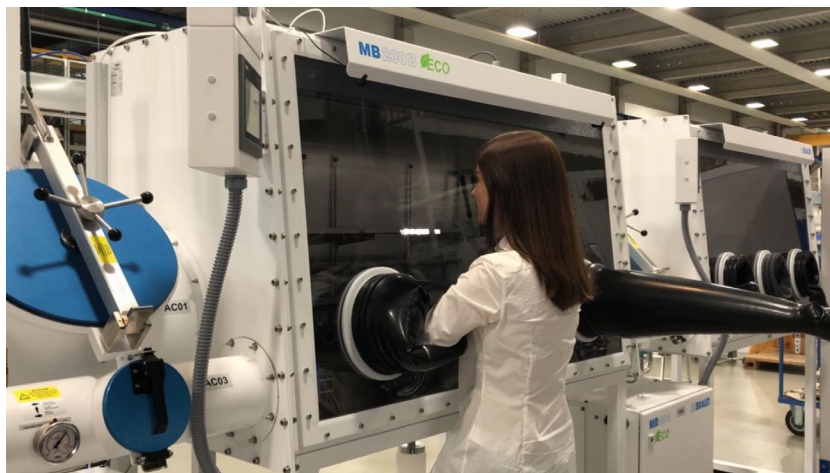

### DESCRIPTION

Integrated standalone system (no internet connection required) that allows you to activate glove box functions without having to remove your hands from the gloves.

All practical functions of the glove box can be controlled by voice, change of the working pressure, switch on/off the light, start the automatic antechamber cycle, switch on/off the ECO MODE, activate the glove box purge, adjust the temperature of the atmosphere or freezer, with on/off the circulation.

You can also ask for oxygen and humidity values, freezer and atmosphere temperatures when the display is not visible, for example when the system is configured as a double-sided glove box. (\*)

## MORE INFORMATION WITH OUR DEMONSTRATION VIDEO

(\*) Technical note: Dependent upon operating conditions.
